Famine - test works - opening.

ENCLOSURES.....

SPARE COPIES.....

I propose to open a test work on the Bellary-Siruguppa road, the work to be between the 7th and 17th Miles. It may, however, be necessary to change the position of the work-spots, as experience later shows to be desirable. I request therefore, that the sanction may be given for opening a test work on the Bellary-Siruguppa road.

I placed the proposal before the Commissioner yesterday, while he was at Bellary, and he authorised me to open the work in anticipation of sanction.

2. There is no estimate at present, but an estimate is being prepared. Actually this is a formal detail, which is not important, as the work consists of breaking metal and must be taken up whether the metal is immediately required or not.

3. There is not very great need for this work, but it is desirable for the following reasons. There are villages on this road which need relief. Further, some of the persons, who were working on the Bellary-Talur road which is now being closed, can work on this new work, while others can go to the Moka-Gulyam road. Moreover this work should divert some workers from the Kurugodu-Emmiganur road and the Sirigeri-Karur road and postpone the day upon which

the work available on those two roads will be exhausted.

Finally, although the people who were working on the Bellary-Talur road were not in great need of relief, the fact that they had been given work near their homes, which is now being taken away from them, justifies some special consideration for them.
